

## Introducing our BRAND new look!

We've been pushing the "BRAND wagon" to our clients for years, *in fact we've even been featured in a national trade magazine for doing just that!*

So it was time for us to change our own identity from **Signature Signs** to **Signature Sign & Image**. We realized that we're not just a sign company - we're brand builders.

A big part of what we do is create original logos that eventually become the foundation for marketing and identity. We believe that image can be the difference between success and failure in business.

So whether we build your existing brand or one we create for you, one thing is certain - not only does your name go on it, *our name stands behind it!*

## Please visit our NEW website [www.signaturesigns.ca](http://www.signaturesigns.ca)

We wanted our website design to reflect the same approach we take when designing signage, logos or graphics - quiet, clean, classic and professional! **But mostly we want our work to speak for itself.**

We've been changing the sign and image landscape in and around Niagara and beyond since 1983, creating brand identity and sign solutions for clients from small business start ups to corporate giants - from industry to entertainment.

Through it all we remain committed to superior design, quality products and great service that continues to bring clients back time and time again.

**signature** SIGN & IMAGE

Hats off to John Jankovic for his web magic!

## Jimmy Buffett's Margaritaville comes to Niagara Falls!

It's not every day that a signage package comes across our desk that includes spectacular display signs created with multi-dimensional metal, backlit and halo-lit custom channel letters with miles and miles of delicate skeleton neon.

**Are you kidding?... This had our name all over it!!**

Deborah, Karen, Elaine & Jeff behind the scenes!

**Actually this job had everyone's name all over it!** It took a very talented and hardworking team of signmakers and installers from **Signature Sign & Image** to make it all happen!
